Bharathiar University

2024 – 2027

Currently in 5th semester

SKILLS

Video editing

Graphic design

Motion graphics

LANGUAGES

English

Hindi

Assamese

Bengali

Profile

Multimedia and animation student who edits videos and designs thumbnails for creators and brands. I cut footage so people keep watching, and design the frame that makes them click. I run my own YouTube channel, where I apply both skills on every upload.

Experience

Founder, Video Editor & Thumbnail Designer 2026 – Present

Own YouTube channel · Sikder

- Run the whole channel on my own, from the first idea to the final upload.
- Plan each video and write its script before any editing starts.
- Edit each video from raw footage to final export, covering cuts, pacing, sound and colour.
- Design a custom thumbnail for every upload to stand out in search and suggestions.
- Publish and manage uploads, including titles, descriptions and scheduling.

What I Do

Long-form editing

Cuts, pacing, sound and colour for videos that hold attention past the first minute.

Short-form editing

Vertical edits for Shorts and Reels, built around the first second.

Thumbnail design

Eye-catching YouTube thumbnails with a clear focus, bold colour and easy-to-read text.

Portfolio

SIKDER. — Video Editor & Thumbnail Designer

My personal portfolio site, showing selected video edits and thumbnails.
